## LIST OF SPEAKERS:

### WHY FMAC?

The recent Covid-19 and the threats of future pandemics, natural disasters and geopolitical instabilities have changed the norms of businesses. While embracing the 4th Industrial Revolution (IR4.0), the Facilities Management industry practitioners and their stakeholders must gear themselves up to cater for the changes.

This two-day Conference will explore and elaborate vital elements to survive the New Normal with the assistance of the IR4.0. Various speakers and expert panellists will enlighten us on interesting areas such as Smart FM, Mega Data Centres, Smart Cities, Sustainable FM, Resilient Buildings and many more.

If you are FM practitioners, property owners, investors, managers or operators, or other stakeholders such as regulators, academicians and suppliers, this Conference is for you!
