Enhancing the Global Halal Economy & Ecosystem:  
Recovery, Sustainability and Excellence

## THEME

*Enhancing The Global Halal Economy & Ecosystem:  
Recovery, Sustainability and Excellence*

## SUB THEMES

Halal Food	Halal Ingredients	Halal Animal Feed
Halal Logistics	Halal Testing	Halal Quality Assurance
Halal Tourism and Hospitality	Halal Standards and Policies	Halal and Legal / Regulatory Framework
Halal Auditing	Halal Technologies	Halal Packaging
Halal Cosmetics	Halal & Governance	Halal Financing
Ethical Issues in Halal Products	Halal Businesses & Halal Auditing	Halal and Curriculum Development
Halal Warehousing	Halal Supply Chain	Halal Transportation
Halal Medical Device	Business Ethics	Halal Slaughtering
Halal Pharmaceuticals	Shariah Compliance and Shariah Governance Issues	Halal Retailing

**GENERAL INFORMATION:**

**LANGUAGE:**

- English
- Arabic
- Malay

**TYPES OF SUBMISSION:**

- Abstract Paper
- Full Paper

**MODE OF PRESENTATION:**

Virtual Presentation

**PUBLICATION:**

All accepted papers will be published in one (1) of the journals/publications below:

- Indexed Journal (Scopus, Mycite, etc); or
- Refereed Journals; or
- Chapter in Books; or
- Indexed proceedings

Additional fees maybe requested for the publication according to the respective journals.

**IMPORTANT DATES (GMT +8:00):**

- Abstract Deadline: **30 SEPTEMBER 2021**
- Notification of Abstract Acceptance: **10 OCTOBER 2021**
- Full Paper Deadline: **10 NOVEMBER 2021**
- Payment Deadline: **10 NOVEMBER 2021**
- Camera-ready Paper Deadline: **1 DECEMBER 2021**
- Conference Date: **22-23 FEBRUARY 2022**

# **Title of Your Paper: (Centered, Times New Roman (Bold) 14 pt)**

(10 pt blank line)

**Abstract:** The abstract (approximately 150 to 250 words) should briefly describe the background, methods, results and conclusions of your research. It should be written in a single paragraph using single line spacing, Times New Roman, font size 10, justify and A4 format. Do not include reference citations in the abstract.

(10 pt blank line)

**Keywords:** Keyword1, Keyword2, Keyword3 (maximum of five subject keywords, in alphabetical order, each keyword should not contain more than two compound words)

## **1. Introduction**

It is expected that authors will submit carefully written and proofread material. Selected conference papers (written in English/Malay/Arabic only) will be reviewed for consideration to be published in a special issue of indexed journals and mycite journals. Other publications will be in a refereed journal(s) and chapters in book (CIB). Please use British English (for English-written paper only). The maximum page length should be **8-10 pages (for journal articles) and 15 pages (for CIB)**, including text, tables, figures and references.

State the background, a short literature survey and objective(s) in the Introduction section. Use the international system of units (SI). Technical terms should be explained unless they may be considered to be known to the conference community. State the corresponding author. The manuscript should at least contain **Introduction, Method, Results and Discussion, Conclusion, Acknowledgement** and References.

## **2. Paper Format**

The paper must be prepared on A4 size (210×297 mm) with 1 inch margins left, right, top and bottom. The submission file is in Microsoft Word/Open Office document file format. Prepare text in a single column and use font type Times New Roman, size 11 pt. All text paragraphs should be single-spaced, with first-line indented by 10 mm. No spaces should be placed between paragraphs. Do not underline email addresses or URLs and do not typeset them in blue color. Do not include page numbers and running heads. All section titles must be First Letter Capitalized.

### **2.1 Emphasis and Special Types**

Italics should be used for emphasizing words or phrases in running text, but do not format entire paragraphs in italics.

### **2.2 Tables and Figures**

The tables and figures should be numbered consecutively. Figures and tables that haven't been cited in the text should not be presented. Figures and tables should be placed close after their first reference in the text. All figures, tables, formulas, etc. must be within the margin. The tables and figures should be one line of space above and one line of space below before the text continues.

### 2.2.1 Table Formats

Use the table function to create and format tables. Do not use the space bar or multiple tabs to separate columns and do not use Excel to create tables as this can cause problems when converting your table into the typesetting program and other formats.

### 2.2.2 Table Captions

Table captions begin with the term Table in bold type, followed by the table number, also in bold type. Table captions should be centered above the table. The following is the example for Table 1.

**Table 1.** Title of the table

Rauracis		Latobrigis	
Year	Tulingis	<i>m</i>	<i>I SD</i>
2	5	0.75	0.41
3	6	0.62	0.23
4	16	0.89	0.52
5	7	1.24	0.36

*m* mean, *I SD* standard deviation

### 2.2.3 Figure Formats

Graphics and diagrams should be saved as EPS (encapsulated postscript) files with the fonts embedded, Microsoft Office files (excel or PowerPoint) can be submitted in the original format (xls,xlsx, ppt, pptx). Scanned graphics in TIFF format should have minimum resolutions of 1200 dpi. Photos or drawings with fine shading should be saved as TIFF with a minimum resolution of 300 dpi.

A combination of halftone and line art (e.g. Photos, containing line drawings or extensive lettering, color diagrams, etc.) should be saved as TIFF with a minimum resolution of 600 dpi.

### 2.2.4 Figure Captions

Figure captions begin with the term Fig. in bold type, followed by the figure number, also in bold type. Figure captions should be centered below the figures as shown in Fig. 1. The figures should be 78 mm – 117 (3-4 ½ inches) wide and not higher than 198 mm (7 ¾ inches). Color figures will appear in color in the eBook, but will usually be printed in black and white.

## 2.3 Equations

Equations should be numbered consecutively with equation numbers in parentheses on the right-hand edge of the text as shown in Eq. (1).

$$c^2 = a^2 + b^2 \tag{1}$$

The equation should be one line of space above and one line of space below before the text continues. In Word, use the Math function of Word 2007 or 2010, Math type or Microsoft Editor to create your equations and make sure super- and subscripts are distinguishable. Within equations, number,

punctuation, parentheses, common function names, units or mathematical signs are set upright. The variables are set in italics and vectors are set in bold. Digits are used for all numbers larger than ten. Commas are used to separate thousands and decimal point to separate decimals.

## 2.4 Bibliography

Cite references in the text with author name/s and year of publication in parentheses. For one or two authors, the references should be cited as Egan (2008), (Egan, 2008), William and Lewis (2011) or (William & Lewis, 2011). For three or more authors, include only the surname of the first author followed by et al. and year of publication, e.g. Cheng et al. (2012) or (Cheng et al., 2012). For two or more papers published in the same year by the same author(s), it can be written as Cheng et al. (2012a,b). If two or more authors are cited at the same point in the text, then they are included in the same in-text citation, separated by a semicolon, e.g. (Egan, 2008; William & Lewis, 2011). Please ensure that every reference cited in the text is also present in the reference list (and vice versa). The references should be in alphabetical order. See examples in the list of references below.

## 3. Conclusion

Do not submit a reworked version of a paper you have submitted or published elsewhere. All submissions are peer-reviewed by at least two reviewers.

## 4. Acknowledgments

Acknowledgment is necessary
