Author Guidelines

ETHICS

Authors who submit articles to SEMASYUR affirm that manuscript contents are original. Submission also implies that the manuscript has not been published previously in any other journal or currently submitted for publication elsewhere. Only original papers will be accepted,

and copyright of published papers will be vested in the publisher. The Editorial Board is responsible for preventing publication malpractice. Authors need to avoid plagiarism because SEMASYUR team would not tolerate with it and the possibility to be rejected (desk rejection) is high.

All the submitted manuscripts for publication are checked for plagiarism after submission and before starting review. **If the plagiarism is detected more than 30%, it is found that the authors are very unlikely to revise the manuscript and submit the revised version.** However, authors are welcome to do the required revisions and submit the manuscript as a new submission
