GUIDELINE FOR VIDEO PRESENTATION

Author prepared their "Video Presentation" and "Slide Presentation"	Author upload "Video Presentation" and "Slide Presentation"into their Google Drive	Sent to us the "Video Presentation" and "Slide Presentation"link that generated from Google Drive	After we recevied the link, we will upload the "Video Presentation" in our YouTube Channel and provided the link on conference website.	Link for video presentation & slide will be provided in conference website.On the conference day, Author need to standby to answer the question from YouTube if there is a question for you. All participant is free to view presentation video and download the slide presentation.

We prepared tutorial for upload your Video/Slide and how to generate the link from Google Drive

Notes:

1. **Please make sure that you show your face when recording your video presentation and do not use text-to-speech apps/software (i.e. automatic voice recorder from text typing)**
2. If you're not sure which format to save your video as or are getting an "invalid file format" error message when we're uploading into YouTube, please make sure that you're using one of the following formats: MPEG4, MP4, AVI, WMV, MPEGPS, FLV, 3GPP, WebM, DNxHR, ProRes, CineForm, HEVC (h265)
3. Length for "Video presentation" are between 10 to 15 minutes only.
4. For "Slide Presentation" you can used Microsoft PowerPoint or PDF format.
